

Frequently Used Apps- Overview

App Name/Icon	Overview- Why we use this!
Schoology 	<p>Schoology is used to get materials from our teacher by downloading them and opening them into another app. It is also used for discussion boards with our teammates. It is also a way to submit assignments to our teachers that were created outside of Schoology or complete assignments within the app.</p>
Notability 	<p>Notability allows us to complete readings, worksheets, graphic organizers, and other files our teachers have pushed out to us. We can write, type, highlight, and erase within this app. We can also insert images and record our voices.</p>
iMovie 	<p>iMovie can work to create movies, but also iMovie trailers, which are shorter video clips. We can add images, text, and music. We can also record ourselves and teammates.</p>
Keynote 	<p>Keynote is just like Microsoft Powerpoint! You can make presentations with text and images. You can also make interactive keynotes that allow viewers to click on different items. We use these to make review games of content we are learning. It can also work as interactive time lines.</p>
Explain Everything 	<p>You can use this app to make projects. It is basically like Keynote or Powerpoint, but you can draw and add your voice to it.</p>
Flashcards 	<p>You can make typical flashcards for key terms. Then, you can use the flashcards to play games alone or with other people.</p>
Inspiration Maps 	<p>This app can be used to create graphic organizers, or notes. You can type information as well as add images.</p>
Google Drive 	<p>Google Drive is often used as a way for us to store our work. We can create "Digital Portfolios" that are shared with our teachers and families. We can also create documents, spreadsheets, and slides. What is great is these items can be shared with other students and teachers. Multiple people can collaborate on one project or document at the same time.</p>
Doc Scan	<p>Doc Scan allows us to scan paper copies of work, assessments, and projects. Then, we can immediately send them to Google Drive. We can also immediately email what has been</p>

	<p>scanned to teachers or classmates.</p>
<p>MyHomework</p> 	<p>You can record your homework. You can make different subjects to organize assignments. Also, you can set reminders for when assignments are due.</p>
<p>Overview of the iPad</p> 	<p>This explains how the iPad looks and the different settings you can adjust to fit your needs.</p>
<p>Geo Bee</p> 	<p>This is an educational game that asks questions about the world. You receive points for your answers and speed.</p>
<p>Book Creator</p> 	<p>You can create books that have pictures and text. You can also record your voice reading or presenting this book.</p>
